

L★zer Red Complex #2

Product Characteristics

This high performance, high temperature product exceeds **GC-LB** standards for wheel bearing and chassis applications. It is excellent for high, low and fluctuating operating temperatures providing solid film strength, mechanical stability, and is compatible with most other greases. This lithium complex grease utilizes an additive package that effectively reduces wear, resists water washout and water spray while preventing corrosion. Applications include;

- on-road trucking
- construction
- industrial
- farm
- automotive use

Product Typical Data

NLGI Grade	NLGI	#2
Penetration @ 77F W60	ASTM D-217	277
Thickener	Type	Lithium Complex
Appearance	Visual	Red/Tacky
4-ball EP, weld point, kg.	ASTM D-2596	400+
4-ball wear, mm scar	ASTM D-2266	0.504
Timken OK Load (lbs.)	ASTM D-2509	60
Rust Prevention	ASTM D-1743	PASS
Base Fluid Properties		
-cSt @ 100 C	ASTM D-445	40.7
-cSt @ 40 C	ASTM D-445	358
-VI		166
Water Spray-Off (% wt)	ASTM D-4049	35%
Mobiity @ 60 F (grams/minute)	US Steel	300
Dropping Point (deg F)	ASTM D-2265	550
