

Amstar Curve Grease, Winter

Product Characteristics

Amstar Curve Grease is designed to lubricate rail track curves, reducing friction and wheel wear. This unique blend of polymers, 12% lubricating solids and additive system ensures easy pumping and strong load carrying capabilities. **Amstar Curve Grease** provides excellent slumpability in mechanical lubricators while staying in place on the rail.

Product Typical Data

NLGI Grade	NLGI	#0
Penetration @ 77F W60	ASTM D-217	370
Thickener Type	--	Lithium
Appearance	Visual	Black/Tacky
Lubricating Solids	--	12%
4-Ball EP, Weld Point, kg.	ASTM D-2596	400
4-Ball Wear, mm scar	ASTM D-2266	.570
Water Spray-Off (% wt)	ASTM D-4049	69%
Mobility @ 60 F (grams/minute)	US Steel	531
Rust Prevention	ASTM D-1743	PASS
Base Fluid Properties		
KV @ 40 C	ASTM D- 445	322.5
KV @ 100 C	ASTM D- 445	20.29
